- CSGKSAND** Cosmic Shimmer Glitter Kiss in Golden Sand
- ST-31** Staz-On – Black
- GRAPHBLACK** Graphmaster Alcohol Marker

These handy tools will make your card creation process much simpler!

Die cutting machine, Ruler, Non-permanent tape, Foam tape

## Step by Step Instructions

**Step 1**

Cut a frame out of Coconut White card with the Lattice Frame. You can also cut it by hand.

Tip: The Noble collection has great rectangle and square frames that you can use over and over.

**Step 2**

Cut and fold a piece of Teal card to 14.9 x 18cm.

Tip: Use a bone folder to give a crisp crease.

**Step 3**

Colour the frame with Cosmic Shimmer Glitter Kiss, apply a very thin layer if you want the stitching to keep showing.

**Step 4**

After drying add another layer and let it dry again. The first layer will give you some "bite" so the next layer is even easier to apply.

**Step 5**

To stamp straight: Prepare your stamp as follows – this is optional but makes stamping so much easier. Lay down a piece of thin paper with some tape on the back sticky side up along one edge.

**Step 6**

Line up the stamp with the paper using a ruler as a guide, and press the stamp to the tape.

**Step 7**

Turn over the stamp and paper. Then put the ruler on the edge of the paper and draw the line with the alcohol marker. This line will be your guide for stamping the sentiment straight.

**Step 8**

Stamp the birthday sentiment on a thin piece of paper, and fussy cut the paper just around the words. This will be the mask for the next step.

Step 9

Stamp the birthday sentiment on Coconut White card using black ink.

Step 10

Put the mask over the stamped image and secure with low tack tape.

Step 11

Turn the stamp a quarter and stamp the image on the card and over the mask.

Step 12

Do the same at the bottom of the card then remove the mask.

Step 13

Your stamped background is done.

Tip: Keep the mask to use multiple times.

Step 14

Stamp the slashes randomly on the frame.

Tape the stamped image to the card.

Attach the frame on top with foam tape to create some dimension and complete your card.
